Condor Gold plc

# DISCLAIMER

This presentation has been prepared by Condor Gold plc (the “Company”).

This document does not constitute or form any part of any offer or invitation or other solicitation or recommendation to purchase any securities and contains information designed only to provide a broad overview for discussion purposes. As such, all information and research material provided herein is subject to change and this document does not purport to provide a complete description of any investment opportunity. All expressions of opinion are also subject to change without notice and do not constitute advice and should not be relied upon. The Company does not undertake any obligation to update or revise the information in or contents of this document and makes no representation or warranty as to the accuracy of such information and contents. The Company shall not have any liability for any loss suffered due to reliance being placed on this presentation, the information contained herein or any accompanying oral presentation. Recipients of this information must make their own examination of the tax, legal, financial and other consequences of this proposal and should not treat the contents of this presentation as advice in relation to any such matters. If you are in any doubt as to what action you should take, you are recommended to seek your own advice from your stockbroker, bank manager, solicitor, accountant, fund manager or other appropriate independent financial adviser duly authorised under the Financial Services and Markets Act 2000 and who is qualified and experienced to advise on such matters if you are in the UK, or from another appropriately authorised independent financial adviser if you are in a territory outside the UK. This presentation may not be reproduced in whole or in part, nor may any of its contents be divulged to any third party without the prior consent in writing of the Company.

Some or all of the information contained in these slides and this presentation (and any other information which may be provided) may be inside information within the meaning of the Criminal Justice Act 1993 and the Market Abuse Regulation (EU/596/2014) (“MAR”). Recipients of this information shall not disclose any of this information to another person or use this information or any other information to deal, or to recommend or induce another person to deal in the securities of the Presenter (or attempt to do so). Recipients of this information shall ensure that they comply or any person to whom they disclose any of this information complies with this paragraph and also with MAR. Recipients of these slides and the presentation should not therefore deal in any way in ordinary shares in the capital of the Company (“Ordinary Shares”) until the date of a formal announcement by the Company in connection with the proposed placing. Dealing in Ordinary Shares in advance of this date may result in civil and/or criminal liability.

The information contained in this presentation of a scientific or technical nature relating to the Company’s La India Project has been summarized or extracted from the technical report entitled “*Technical Report on the La India Gold Project, Nicaragua, December 2014*”, dated November 13, 2017 with an effective date of December 21, 2014 (the “**Technical Report**”), prepared in accordance with National Instrument 43-101 – *Standards of Disclosure for Mineral Projects* (“**NI 43-101**”). The Technical Report was prepared by or under the supervision of Tim Lucks, Principal Consultant (Geology & Project Management), Gabor Bacsfalusi, Principal Consultant (Mining), Benjamin Parsons, Principal Consultant (Resource Geology), each of SRK Consulting (UK) Limited, and Neil Lincoln of Lycopodium Minerals Canada Ltd., each of whom is an independent Qualified Person as such term is defined in NI 43-101. The information contained herein is subject to all of the assumptions, qualifications and procedures set out in the Technical Report and reference should be made to the full details of the Technical Report which has been filed with the applicable regulatory authorities and is available on the Company’s profile at [www.sedar.com](http://www.sedar.com).

The scientific and technical information in this presentation has been read and approved by David Crawford, Chief Technical Officer of the Company, and Andrew Cheatle, P. Geo, each of whom is a Qualified Person as defined by NI 43-101. **Forward-Looking Statements** All statements in this press release, other than statements of historical fact, are ‘forward-looking information’ with respect to the Company within the meaning of applicable securities laws, including statements with respect to: the ongoing mining dilution and pit optimisation studies, and the incorporation of same into any mining production schedule, future development and production plans at La India Project.

Forward-looking information is often, but not always, identified by the use of words such as: “seek”, “anticipate”, “plan”, “continue”, “strategies”, “estimate”, “expect”, “project”, “predict”, “potential”, “targeting”, “intends”, “believe”, “potential”, “could”, “might”, “will” and similar expressions. Forward looking information is not a guarantee of future performance and is based upon a number of estimates and assumptions of management at the date the statements are made including, among others, assumptions regarding: future commodity prices and royalty regimes; availability of skilled labour; timing and amount of capital expenditures; future currency exchange and interest rates; the impact of increasing competition; general conditions in economic and financial markets; availability of drilling and related equipment; effects of regulation by governmental agencies; the receipt of required permits; royalty rates; future tax rates; future operating costs; availability of future sources of funding; ability to obtain financing and assumptions underlying estimates related to adjusted funds from operations. Many assumptions are based on factors and events that are not within the control of the Company and there is no assurance they will prove to be correct.

Such forward-looking information involves known and unknown risks, which may cause the actual results to be materially different from any future results expressed or implied by such forward-looking information, including risks related to: mineral exploration, development and operating risks; estimation of mineralisation and resources; environmental, health and safety regulations of the resource industry; competitive conditions; operational risks; liquidity and financing risks; funding risk; exploration costs; uninsurable risks; conflicts of interest; risks of operating in Nicaragua; government policy changes; ownership risks; permitting and licencing risks; artisanal miners and community relations; difficulty in enforcement of judgments; market conditions; stress in the global economy; current global financial condition; exchange rate and currency risks; commodity prices; reliance on key personnel; dilution risk; payment of dividends; as well as those factors discussed under the heading “Risk Factors” in the Company’s annual information form for the fiscal year ended December 31, 2020 dated March 31, 2021 and available under the Company’s SEDAR profile at [www.sedar.com](http://www.sedar.com). Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking information, there may be other factors that cause actions, events or results not to be as anticipated, estimated or intended. There can be no assurance that such information will prove to be accurate as actual results and future events could differ materially from those anticipated in such statements. The Company disclaims any intention or obligation to update or revise any forward-looking information, whether as a result of new information, future events or otherwise unless required by law.

# MINA LA INDIA - FULLY PERMITTED MINE – CONSTRUCTION READY

## Production: Stage 1– 82,000 oz gold p.a from Probably Mineral Reserves

- Bankable feasibility Study completed on La India open pit
- US\$106M total upfront cost capital cost
- 100,000 oz gold p.a. target for initial production from 3x permitted pits
- Construction fast-tracked by acquisition of 2,650tpd SAG mill, delivered to Nicaragua
- US\$4.3M spent to date on purchasing land
- US\$7M for a new SAG Mill

## Production Expansion Year 3 – 150,000 oz gold p.a. .

- by adding 1.2M oz gold underground to the mine plan
- Additional investment in Nicaragua

## Exploration to prove a major 5M oz Gold District

### Strong Economics

- AISC US\$1,039/oz gold in FS
- AISC US\$ 900/oz gold in PEA

### Undervalued

- US\$27 per oz gold in ground

# NICARAGUA OVERVIEW

## Country Overview

- Nicaragua is a strong and well versed mining jurisdiction
- Gold is the biggest export in USD
- Government is supportive of mineral and mine development
  - 25 year exploration and exploitation concessions
  - Tax: 30% net profits tax, 3% net smelter royalty.
  - Fully convertible currency
  - Skilled labour available
  - Five TSX listed companies operate successfully in Nicaragua
- Good infrastructure in place
  - Pan American highway 15km away
  - Grid powerline following the road through licence area

## Toronto Listed Companies With Operations in Nicaragua

Source: Chamber of Mines Nicaragua

## Shareholders Breakdown

23 May 2023

Name	Number of Shares	Percentage of Issued Share Capital
Jim Mellon - Chairman	36,435,814	20.2%
Nicaragua Milling Company	7,150,000	4.0%
Oracle Investments	6,869,112	3.8%
Mark Child - CEO	4,526,666	2.5%
<b>Total</b>	<b>180,790,824</b>	<b>100.0%</b>

## Valuation 23 May 2023

Market Capitalisation at 25p = £45M or US\$57M

Valuation of an oz gold in the ground. Takes no account of permits, FS, land, upside, mill  
2.5M oz gold for La India Project + Rio Luna concession and silver credits  
US\$28 per oz gold in the ground or 1.3% of gold price \$2,000 oz gold

Post tax NPV: Best indication is 150,000 oz gold p.a. scenario in PEA:

- US\$418M NPV and IRR 54% at US\$1,700 oz gold. price to book ratio 0.14 times
- US\$628M NPV and IRR 74% at US\$2,000 oz gold. price to book ratio 0.09 times
- US\$769M NPV and IRR 87% at US\$2,200 oz gold. price to book ratio 0.07 times

# 3 x Open Pits Fully Permitted to Construct, Extract and Operate

## LA INDIA OPEN PIT – Feasibility Study – October 2022

Probable Mineral Reserve of 7.3Mt at 2.56g/t gold for 602,000 oz gold

81,545 oz gold per annum on average for the first 6 years using SAG Mill already purchased with a capacity 2,650tpd/1Mtpa.

Total upfront capital cost US\$106M including 5.1Mt pre-strip, contingency and EPCM

IRR of 23% and a post tax, post upfront capital cost NPV of US\$86.9 million using a discount rate of 5% and price of US\$1,600 oz gold (Mineral Reserve Case).

IRR of 43% and a post tax, post upfront capital cost NPV of US\$205.2 million using a discount rate of 5% and price of US\$2,000 oz gold.

At US\$1,600 oz gold, the La India open pit Mineral Reserve produces total revenues of US\$888 Million, the total operating costs of mining, process and G&A are US\$480M, leading to an operating profit of US\$408 Million or a 46% operating margin. After government and other royalties, but before sustaining capital, the EBITDA is US\$355M,

At US\$2,000 oz gold after paying royalties, but before sustaining capital the EBITDA is US\$563 Million

Low average Life of Mine All-in Sustaining cash costs US\$1,039 per oz gold

Feasibility Study = accuracy of + or – 15% for capex and 50% engineered

# Economics of Feasibility Study – vs PEA

**FURTHER  
RESOURCE  
EXPANSION**

**CONDOR GOLD**

# RESOURCE EXPANSION

20,000m drilling required to add potentially 900,000 oz gold in Resource at the core project area, increasing to 3 Moz

Core Area	Current Resource <sup>1</sup>	Target Resource
La India	1,300,000 oz	1,600,000 oz
America	479,000 oz	630,000 oz
Mestiza	333,000 oz	780,000 oz
<b>TOTAL</b>	<b>2,112,000 oz</b>	<b>3,010,000 oz</b>

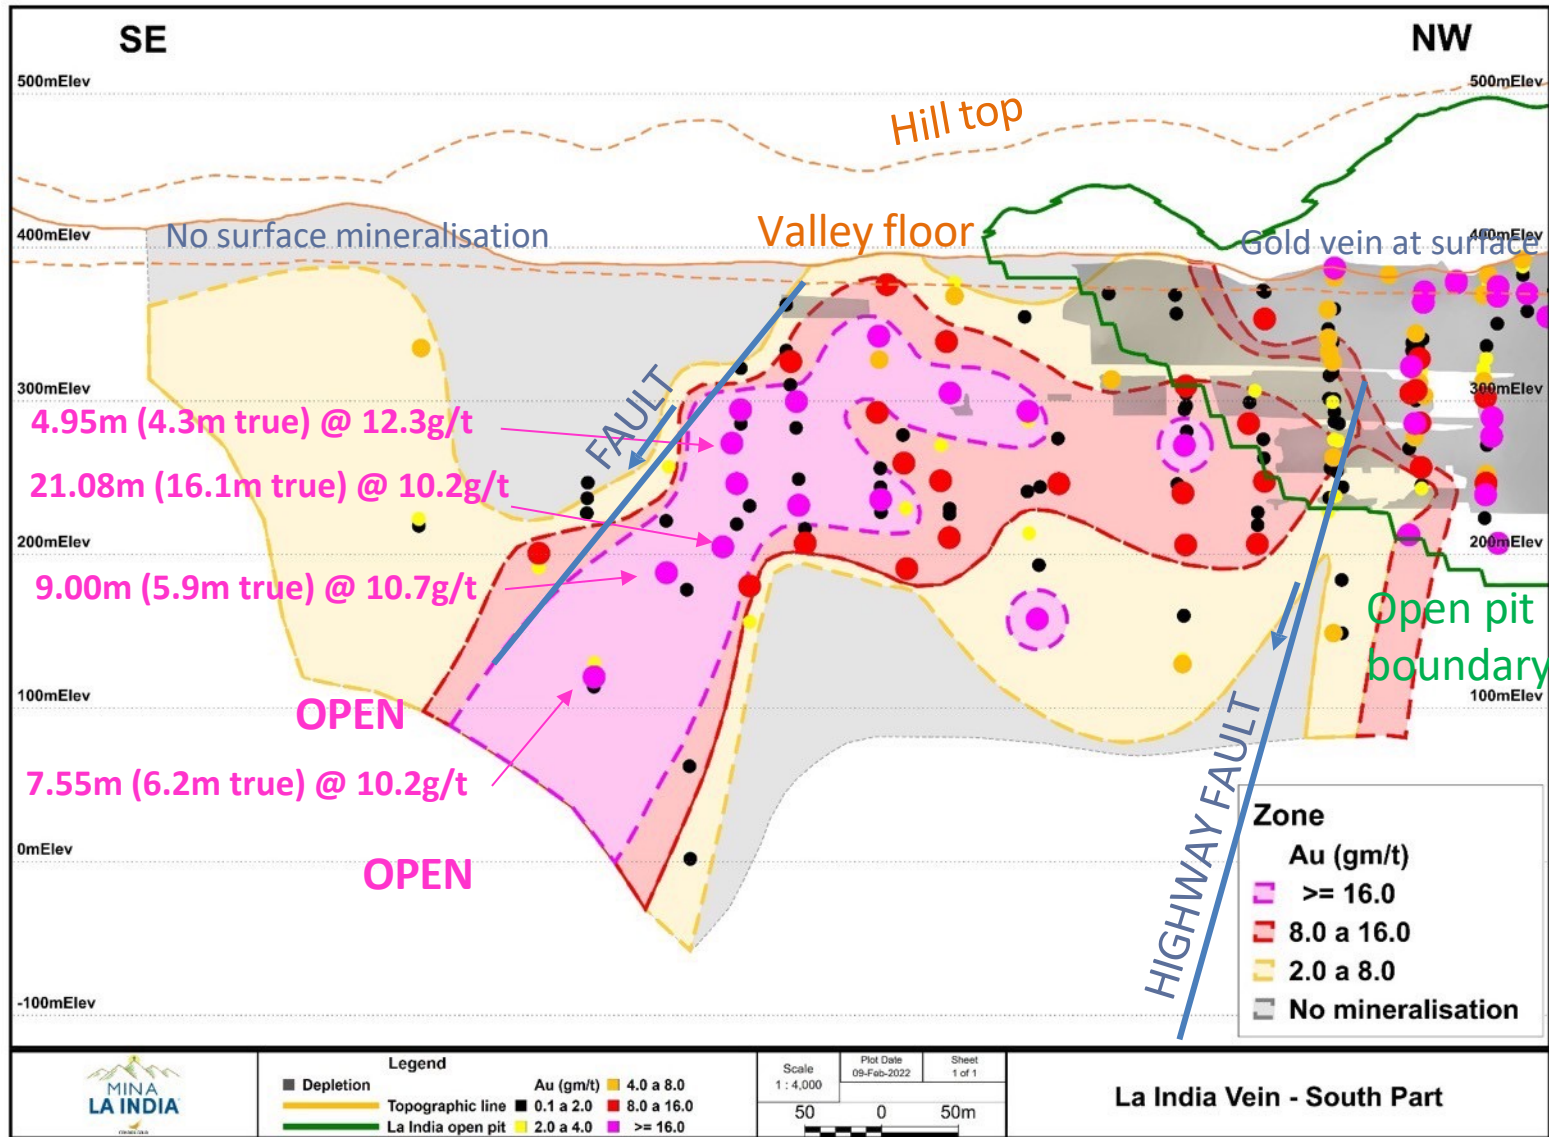

**43%**

- Additional areas that can be expanded along strike and at depth have the following Inferred Mineral Resources:

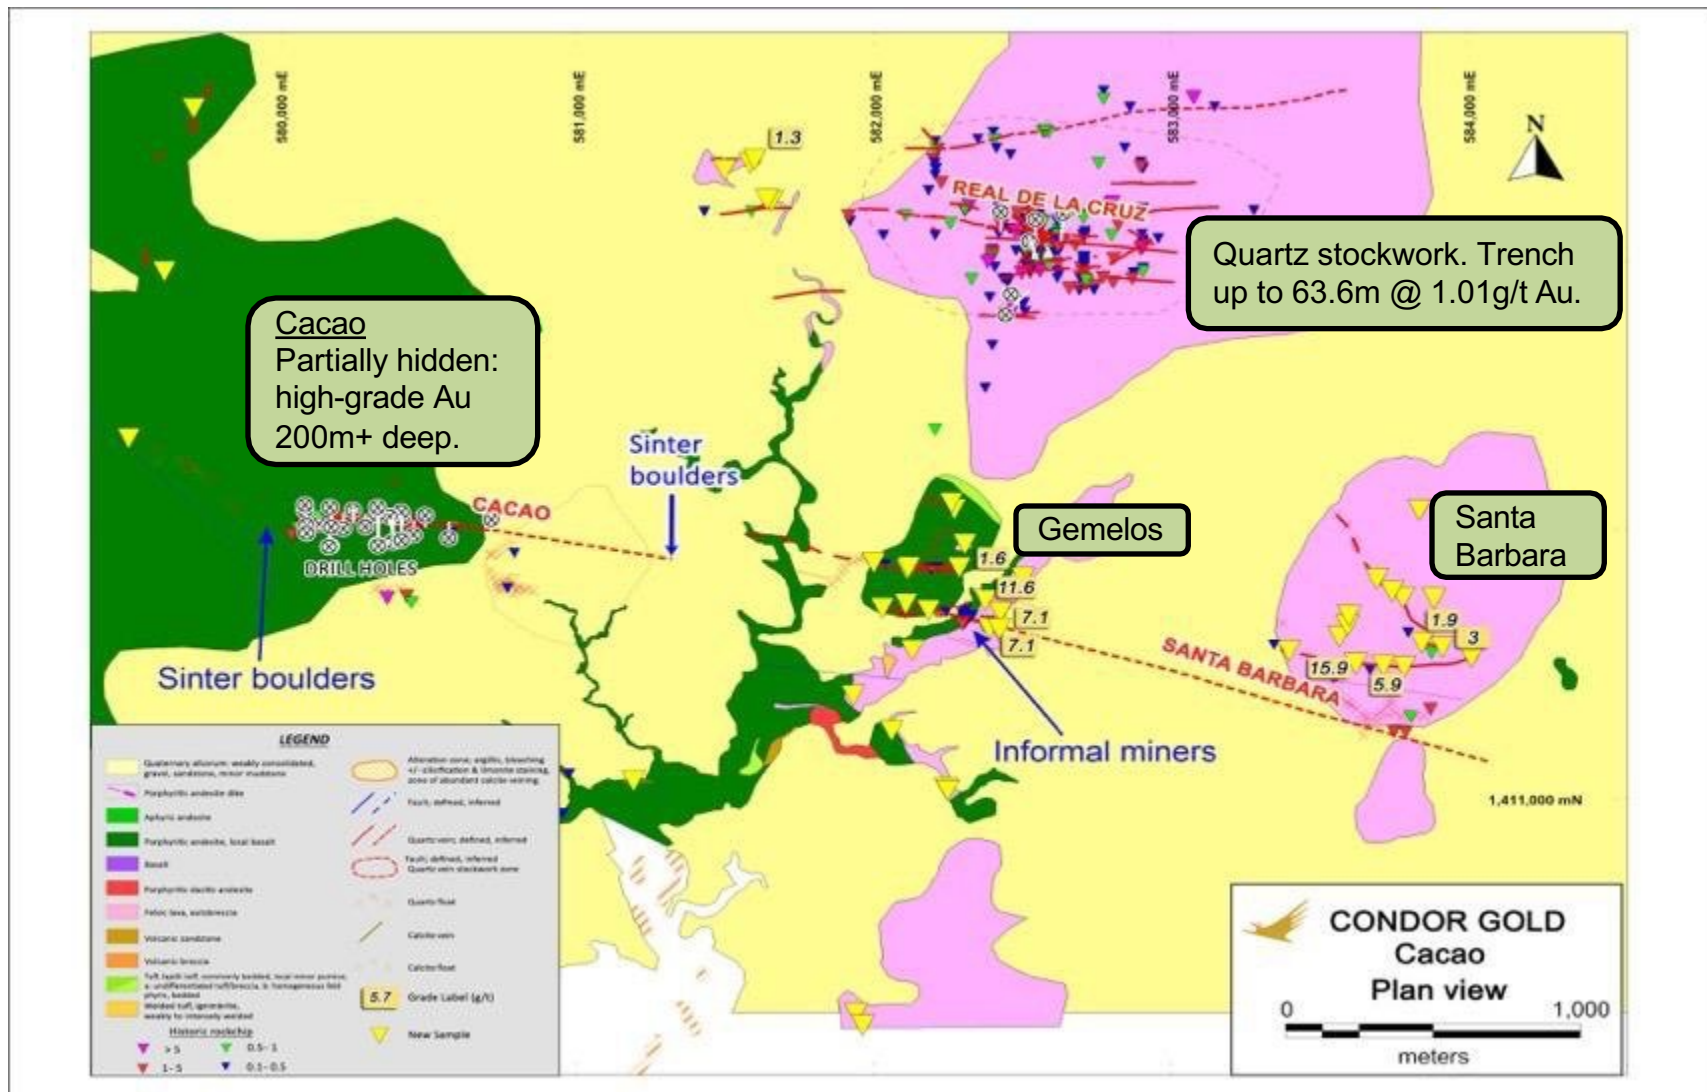

■ Cacao	102,000 oz
■ Central Breccia	56,000 oz
■ San Lucas	59,000 oz
■ Tatascame	34,000 oz

# HIDDEN EPITHERMAL VEIN – LA INDIA SOUTH

# HIDDEN EPITHERMAL VEIN – CACAO – SANTA BARBARA TREND – 4Km

# CACAO LONG SECTION – CONTOUR >10M THICK 14.9M TRUE WIDTH AT 3.94 G/T GOLD INCLUDING 2.6M AT 7.76 G/T GOLD

**ENVIRONMENT  
AND SOCIAL**

# SOCIAL LICENCE TO OPERATE with 12 people working in social department

- ◆ US\$250,000 Water Purification Plant installed May 2021 at La India
- ◆ 452 households receive 5 gallon drinking water bottles (904 bottles) twice weekly.
- ◆ Eight “Involvement Groups” engaging the elderly, local businessmen, artisanal miners co-operative members, independent artisanal miners, local association for development initiatives, water committee, youth committee and childhood committee.
- ◆ 4,600 people impacted; 10 communities benefited from 10 social programs.
- ◆ 93 families actively involved with 07 self-sustaining projects established by Condor.
- ◆ 112 of 500 people are already receiving training within the Community Training program.
- ◆ Training the local community, 292 people trained in trades so far.
- ◆ 84 organized local businesses, with access to financing and a savings program.
- ◆ 89 older adults enjoy better access to health and recreation.
- ◆ Training for artisanal miners.
- ◆ 80% of the persons in the community participates in at least one program with the company.

## **INVESTMENT CASE FOR A CONSTRUCTION READY PROJECT**

**82,000 oz gold production p.a. from reserves in La India open pit**

**100,000 oz gold production p.a. permitted from 3 x open pits for 8 years**

**Fully permitted to construct plant & extract ore from 3 open pits**

**New SAG Mill purchased in country. Land Purchased, 14 Hectares cleared**

**150,000 oz gold production p.a. for 9 years by adding underground**

**Significant upside potential - 5 Moz Gold District Potential**

**Strong economics – AISC US\$1,039 oz Au (Base Case)**

**Undervalued US\$27 per oz gold in the ground. High grade resource/reserve**

Multi-stage quartz veining (high Au grade).

Banded chalcedonic quartz vein (mod-high Au grade).

Footwall quartz breccia (low-moderate Au grade).

Fault brecciated quartz vein (mod-high Au grade).

# EXPERIENCED BOARD

## JIM MELLON

### Non Executive Chairman

Jim Mellon, based in the Isle of Man, is a renowned fund manager. He began his career with GT Management in the US and in Hong Kong and later became the co-founder and managing director of Thornton Management (Asia) Limited based in Hong Kong. He is co-founder of Regent Pacific Group and Charlemagne Capital Limited and is currently chairman of Manx Financial Group Plc and co-chairman of Regent Pacific Group Ltd and Emerging Metals Limited, a director of Charlemagne Capital Limited, Burnbrae Group Limited and various other investment companies. Jim holds a Master's Degree in Philosophy, Politics and Economics from Oxford University

## MARK CHILD

### CEO

Mark Child joined Condor's Board in May 2006 and became full time CEO in July 2011. He acquired the 12 concessions that comprise the 588 sq km La India Project and has raised US\$60M via private placements and developed the La India Project into what it is today overseeing 60,000m drilling, PFS studies and successfully permitting the Mina La India. Mark is a versatile senior entrepreneurial executive, with 20 years equity capital markets experience, mainly in emerging markets. At board level he has been an executive director and non executive director of several companies

## ANDREW CHEATLE

### Non Executive Director

Andrew Cheatle (P.Geo. FGS, MBA) is a seasoned CEO and director within the mining industry. As a professional geoscientist and graduate of the Royal School of Mines, Imperial College, London, his 30-plus-year international career has encompassed both the senior and junior mining sectors. Based in Toronto and London (UK), he is a sought-after advisor to the minerals industry, specialising in technical assessments, corporate development, and investments globally with a recent focus on Africa for Allied Gold Corp. His roles have included Executive Director (CEO) of the Prospectors and Developers Association of Canada (PDAC), Principal Geologist at AMEC plc; Chief Geologist at Goldcorp Inc./Placer Dome Inc.; and Mineral Resource Manager with Anglo American Corporation. Most notably, he held the position of President of the Association of Professional Geoscientists of Ontario.

## IAN STALKER

### Non Executive Director

Ian Stalker joined Condor's Board in November 2019. He has worked in the mining sector for 45 years and been involved in the construction and operation of 5 gold mines. He was Managing Director Of International Projects at Ashanti Goldfields Ltd and VP Gold Fields International Projects (Australia and Europe). More recently, he was CEO of Uramin, which sold for US\$2.5Billion to Areva and was K92 Mining Inc, a gold producer operating in Papua New Guinea.

## KATE HARCOURT

### Non Executive Director

Kate Harcourt is a Chartered Environmentalist with 25 years' experience of the environmental and social aspects of both open pit and underground mining projects around the globe. She has worked as part of the Owner's Team for a number of companies and also on behalf of financial institutions, for example carrying out compliance performance monitoring during construction and operations. Kate has worked as a Director of Health, Safety, Environment, Communities and Security for Mag Industries, a natural resource company with assets in Republic of Congo. She has worked for the IFC on a geothermal project in Nicaragua since 2010. Kate has a Master of Science degree from Imperial College in Environmental Technology.

# SENIOR MANAGEMENT TEAM POISED TO DEVELOP LA INDIA PROJECT

## AISER SARRIA SIRLAS

### General Manager Mina La India

Aiser Sarria is a Civil Engineer and Nicaragua national with 18 years experience specialising in mining projects. He has worked in both open pit and underground mining operations and on large scale civil projects. He has worked in Nicaragua and El Salvador and attended training courses in Mexico, Guatemala, El Salvador, Nicaragua, Costa Rica, Colombia, Venezuela, Perú and Brazil. Before joining Condor, Aiser was the Projects and Mines Superintendent at the El Limon Gold Mine, one of the largest operating gold mines in Nicaragua, currently owned by B2Gold Inc. During his 6 years at B2Gold, Aiser was the manager of seven open pit operations, the construction of two stages of Tailings Storage Facilities and was Pavon's Mining Project Manager. From 2002 to 2011 he worked with AGRENIC, CEMEX Nicaragua and CEMEX El Salvador where he was responsible for many civil work projects, including eleven industrial plants producing construction materials and the extraction operations for five quarries.

## DR. LUC ENGLISH

### Senior Resident Geologist

Dr. Luc English is an experienced exploration geologist and manager with over 25 years global experience. Dr English has contributed to the definition of significant new mineral resources and the development of a number of open pit gold mines in Australia. During the last 14 years he has worked on a number of projects in Nicaragua in a range of geological settings; planning and supervising the first drilling on what is now Mako Mining's San Albino Project, exploration drilling on Oro Verde's Topacio Project, Minera Los Lirios' (Electrum Group's) porphyry system El Guaylo Project, and most notably as Condor Gold's Country Manager from 2007 to 2015 where his principal role was to oversee 45,000m of drilling at La India Project, which led to the discovery and definition of over 2.32Moz gold mineral resource.

## DAVE CRAWFORD

### Chief Technical Officer

Dave Crawford is a Mining Engineer / MBA with over 40 years background in project studies, mine design, economic analysis and resource estimation spanning 43 years in multiple commodities and multiple countries. He is a Registered Professional Engineer and a Qualified Person under CNI 43-101. He has worked with Newmont Mining as a Study Director for Mergers and Acquisitions and Value Assurance in gold and copper projects, in-situ uranium projects in Kazakhstan, and Principal Mining Engineer with Pincock, Allen and Holt. Formerly, he was responsible for the annual mine plan; as well as reporting annual reserves, LOM equipment requirements, pit optimizations and various trade-off studies to improve shareholder value.
